

“My life is intimately linked with notes . . . strung together like mystical pearls: creating a score of Visible Music that I dedicate to you—Beloved One—my breath is yours.”

“As a musician and performing artist, it is my honour to have this playful means to generate an atmosphere of peace and joyful repose, and to stimulate and awaken the one infinite secret essence in the audience—to enrapture the flicker until it becomes the Flame. We are collectively inspired to take in the Breath of Life and then, give this back as a conduit for beauty and renewal—to live the Limitless Dance. In such an atmosphere, the performer and audience together embark upon a voyage on the path of music which leads to the unknown. This meditative element of music demands a different attitude of the participants—patience, trust and mindfulness—since it unfolds itself slowly, subtly enchanting like a flower. Such a primordial space engenders a generosity of spirit that embraces an openness for complete surrender that stirs a depth of feeling that cannot be named but by a mantra of the moment!”

Music was inspired by her family and relatives whom constantly reflected the spirit of the holy through chorals, hymns and stories of their missionary travels. The Royal Conservatory trained, classical pianist stretched her performing wings to discover her voice through blues/jazz and gospel varieties, and then moved on to explore modern jazz and world rhythm dance ensembles. The spiritual flame of awareness was ignited through the Earthly birth of her daughter—opening a profound channel to the divine after a long journey and series of pregnancies. As the Ancients would have it, destiny called Hualani to explore the unconventional and this magical activity catapulted her into a new cycle of cosmic learning. In the faint light of dawn, a wisdom treasure erupted from within her—once again generating profound life changes. Ultimately, this gifted opportunities to train with master teachers in the science of sacred sound of the shamanic and monastic lineages—assisting Hualani in unraveling the mystical passages of surrender into the ecstasy of Kriya. Ultimately, this birthed a deep realization of her calling. Her great love for the Earth and Humanity has inspired Hualani to travel the world—reflecting to us the sacred beauty of life through her art, words, songs and performances.

An enigmatic presence sets Hualani apart from the usual performance through her vibrational prowess, united with an intensity of feeling from the heart of this performer—conveying the message through the entire body to her audience. A mystical pearl of inspiration is generously granted with each song and movement—as if an unseen hand reaches out and lovingly touches each member of the audience—unlocking hidden treasures from within them.

Audiences describe Hualani’s signature sound and grounded primordial presence as a “Music Ministry,” referring to her as a “Sound Diviner” and a “Choir of One.” Her wide range of tonal tapestries and body rhythms, transport the listener into spheres of healing stillness, quickening and wisdom. Participants state that her sound presentations are “stirringly powerful,” and “profoundly beneficial for the remembrance of our Divine Human Inheritance.”

Wisdom Treasure of majestic display

that is
profoundly natural and divinely human.

Hualani is a Keeper of the Manu Tara of the Mother Essence Lineage. While playing her supercharged crystal singing bowls, tamera, or drum; chanting, sounding and singing silence; or embodying the display of a Deity—Hualani is divining the presence of now—passionately dancing her path of boundless self-nature here on Earth. Her Transcendental Art of Original Essence is an infinite creative stream—designing a series of presentations that provide the performance, workshop, or initiation in service to our human evolution and the requirements of our Earth Mother.

“Music is life. Since the beginning ... it has been an outpouring of Love—a celestial rhythm composed in concert with the Song of Creation: the precipitation of First Melody through the Rainbow Body—a Dance of Dharma displayed.”

This concert is visible, audible, and perceptible: mysteriously intimate and ecstatic – enchanting all the senses, simultaneously perched on the edge of the eternal harmony and the manifestation of the moment. This Wisdom Treasure is conveyed through the ancient principles of music. Each performance integrates the dynamic unity of Sacred Sound and spontaneous song, Visual Form (Art and Ornamentation) and Dance (Kriya Movement).

*“Breath and take it all in. Within the words ... the sounds ... the moves ... there is a thundering silence. It’s a phenomenal performance like no other—

"Her movements and mudras fascinate—holding mesmerizing energy in communicating divine messages to each one present. She unveils the frequencies of individual God Essence already present in each person through channels of great power—opening energetically the locked-in space to be in the Light of manifestation as valid and beautiful ... using no words of common ear, although words are given surrounding the energy, to pierce and bring into form."

"Hualani's voice carries her intention of reconnecting us to Source. When she sings, it's from this center that she works. There's an Earthy quality to the sound, a feminine sensuousness, and in this way she gives voice to the Divine Mother!"

There is great beauty in your Dance through the power of eye contact and the physical grace of your movement. The gift of your presence is profoundly grounding and opening to God."

H.B. Divine Align—Toronto, ON

"An eclectic and visionary experience that involves sound vibrations of the Earth Mother. Hualani's work brings through the reality of Divine Entity and charismatically carries the unknown into the beyond. The grace that flows in the moment permeates the spaces within and without. All is spectacularly defined and well transmuted in the inertia that carries the physical form into the other realms within eye view."

L. Mc.—Jackson's Point, ON

"Not just a performance ...the dance is an experience that can, if we allow it, change our lives. You touched my Spirit—the truth of myself and my purpose! I cannot be anything but propelled forward in my own journey. I was compelled to listen and watch very deeply. There was more than one voice singing in the purest, most harmonious combination—but coming from one body! I feel blessed to have witnessed this. I have been touched in ways that I cannot yet explain."

The Zone Unlimited—Fenwick, ON

Enlightening the Audience

"Concerts are not merely venues of entertainment, but portals of transcendence where music is being created and revitalized by the mutual responses of the sensitive artist and the listener/observer whose senses have become acutely discerning of the subtleties—absorbed into intimate concentration and communion within the divine embrace of the moment. An environment of non-duality can be generated through the joyful play of consciousness, and the expressiveness of the vocal instrument, the tempo and visual ornamentation."

"Through this sacred activity, every sound is regarded as a mantra. Each gesture is a mudra evoking purposeful intention and feeling. Every step and posture is a symbolic appearance of the Divine Mandala. Through this awareness, the Dance is a full body Puja—fertile ground for the blessings of Kriya and a vessel for magical passages through which harmony and wisdom may manifest."
